EXPERIENCE

Senior Software Engineer — Department of Economy and Tourism (DET), Government of Dubai
Dubai, UAE | Nov 2025 – Present | Projects: app.det.gov.ae (Unified Portal), investindubai.gov.ae (Invest in Dubai)
Technologies: Vue.js, Nuxt, Next.js, Pinia, TypeScript, Vuetify, Azure

- Lead a small frontend team (2–3 engineers) building DET's Unified Portal, an enterprise web application for complaint and violation management.
- Review pull requests, mentor engineers and define frontend standards (coding conventions, project structure, linting) for the team.
- Developed features for Invest in Dubai (investindubai.gov.ae) using Next.js with server-side rendering (SSR) and static site generation (SSG).
- Implemented authentication, API integration, dynamic forms, internationalization (i18n) and right-to-left (RTL) layout support in the Unified Portal using Vue.js, Nuxt and TypeScript.
- Designed and built a Theme Generator application that gives multiple DET applications configurable, reusable UI theming.

Senior Software Engineer — Housing.com
Delhi, India | Jun 2021 – Nov 2025 | Products: housing.com, housing.com/premium
Technologies: React, TypeScript, Redux, GraphQL, Apollo Client, Node.js, Express, Linaria, Emotion

- Engineered a custom checkout supporting cards, net banking, UPI (Intent, Collect, QR), wallets and Pay Later, with payment gateway integration; increased checkout conversion rate by 6%.
- Owned frontend development for Housing Premium: gamified discount features lifted conversion by 10%, and smaller "sachet" packages lifted conversion by 12%.
- Built and maintained a Node.js/Express BFF (backend for frontend) layer that aggregated and shaped APIs for the React app and handled server-side rendering (SSR); reduced 5XX errors by 30%.
- Improved Core Web Vitals on Housing Premium and edge landing pages, reducing Cumulative Layout Shift (CLS) from 0.48 to 0 (Premium) and 0.24 to 0 (edge pages).
- Wrote unit and component tests with Jest and React Testing Library as part of feature delivery.

Front End Developer — Spark Eighteen
Delhi, India | Oct 2020 – Jun 2021 | Project: sparkeighteen.com/work/glide-health

- Built and optimized React interfaces for client SaaS products, including Glide Health, integrating REST APIs and Ant Design components.

Engineer Trainee — Sopra Steria
Delhi, India | Oct 2019 – Oct 2020

- Created and maintained an internal support dashboard in React and JavaScript backed by REST APIs.
